DISCUSSION

Incremental fee increases are proposed for the Special Waste Permit Fees. This revenue will allow the Department to provide required services including inspections, issuing permits, education, and investigations, to protect the public health from exposure to potentially toxic or harmful wastes, and to prohibit hazardous waste from being disposed in our public landfills. This revenue was part of the FY 13/14 Budget that was approved by the City Council. In addition, to help assure compliance with regulatory requirements placed upon the city by State and Federal permits, the number of days allowed to file a waste inventory has been changed from 60 to 45.

COST OF TOTAL PROJECT: Projected revenue change will be a total of \$2490.
